# heuristische Depth-first search

- Depth-first
- Voorkeur bepaalde volgorde?
- Heuristieke functie?
- Kosten ?

# heuristische Breadth-first search

- Breadth-first
- Voorkeur bepaalde volgorde?
- Heuristieke functie?
- Kosten ?

# heuristische Breadth-first search

- Voorrangsregels opstellen

# heuristische Breadth-First search

```
class Puzzelnode
{
    int score;
    int[] puzzel;
    String sequentie;
    boolean isdupicaat;

    //methodes ...
    bepaalscore ( );
}
```

**Een priority queue  
van puzzelnodes**  
in plaats van een gewone queue

**Scorefunctie  
Evaluatiefunctie  
Heuristiek**

# heuristische Breadth-First search

- Heuristiek: “Misplaced Tiles”
- Het aantal tegels op de verkeerde plaats

Misplaced= 2

Misplaced = 3

Misplaced= 8

# heuristische Breadth-First search

- Heuristiek: “Summed Manhattan Distance”
- Opgeteld aantal benodigde ‘correctiestapjes’ per tegel

Misplaced= 2  
Manhattan = 6

Misplaced = 3  
Manhattan = 3

Misplaced= 8  
Manhattan = 16

# heuristische Breadth-First search

- Heuristiek: “Linear Conflict”
- Manhattan Distance PLUS twee extra penalty voor een benodigde swap in de rij

Misplaced= 2  
Manhattan = 6  
LinearCn = 8

Misplaced = 3  
Manhattan = 3  
LinearCn = 3

Misplaced= 8  
Manhattan = 16  
LinearCn = 16

# heuristische Breadth-First search

- **Misplaced Tiles**
- **Manhattan Distance**
- **Linear Conflict**
- **Tiles out of row/column**
- **N-MaxSwap (Gaschnig's heuristic)**
- **X-Y**
- **Nilsson's Sequence Score**
- **Pattern Database**

(Sebastian Wandelt, Humboldt U. Berlin)

# heuristische Breadth-First search

- Misplaced Tiles
- Manhattan Distance
- Linear Conflict
- Tiles out of row/column
- N-MaxSwap (Gaschnig's heuristic)
- X-Y
- Nilsson's Sequence Score
- Pattern Database

(Sebastian Wandelt, Humboldt U. Berlin)

- **Admissible ( = <sub>onder</sub>schatten!)**
- **Precisie**
- **Kosten (rekentijd)**

# A-STAR

**After a full week of  
absence, uniform-cost  
returns to state-space.**

**This time, he brought a new  
and powerful weapon: an  
*admissible heuristic***

**“That miserable  
exponential complexity  
won’t stand a chance.  
A-star is born! “**
